Water meters are read by the water supply's meter reader around the 24th of each month. The bills are mailed to the customers at the end of each month. You should receive your bill by the 7th of the month. Call 773-5876 if you have not received your bill by this time. A sufficient water payment is expected to be received from all customers each month. Failure to receive a bill does not justify an extension.

All payments should be received by the water supply by the 15th of each month. A \$12.00 penalty per meter will be added to each account with a balance on the 16th of each month.

Possible disconnection of water service if full payment of the bill and penalty has not been received by the 25th of each month. A \$50.00 reconnect charge, PLUS all outstanding bills are due and payable before service can be restored.

If water service has been terminated and full charges for the water bill have not been received by the close of the regular business day, water service will remain off the rest of the day/night. Upon receiving payment in full, service will be restored during regular business hours. (A drop slot is located at the office and may be used at any time.)
